BIOGRAPHY

Brought to life by Mathieu Vandekerckhove, creative backbone of bands as Amenra, Kingdom, SemblerDeah, Caan..., Syndrome was born at the very heart of the Church of Ra. Syndrome's latest, astonishing, work, NOW AND FOREVER shows art in his truest form: heartfelt, personal, pure and free. Wisdom from a father passed on to his son in an amazing moving journey through beautiful landscapes of sound, music and words. A narrative both deeply touching and shocking, melancholic, brooding but always hopeful and liberating. Experience the beating of a truly creative heart in every note.

Hypertension will release Now And Forever for the first time on vinyl (cd-version on ConSouling Sounds). The LP will honor this work of art to the fullest, it will contain 35 minutes (28 minutes on CD) of the most graceful music you can hear and experience today.
